Puerto Rico Parks

[Cabo Rojo NWR](#)

The refuge lies along the coastal plain of southwestern Puerto Rico and is one of the few blocks of land remaining in public ownership in this area. The habitat is sub-tropical dry forest with approximately 210 acres of grasslands, 320 acres of forest and 50 acres of brush.

Ph: 787-851-7258

[Caribbean National Forest \(El Yunque\)](#)

The Caribbean National Forest, is located in the Sierra de Luquillo Mountains, approximately 25 miles northeast of the San Juan metro area. It encompasses over 28,000 acres of land (1,500 hectares), making it the largest block of public land in the Island of Puerto Rico. CNF, locally known as El Yunque, is one of the most popular recreation sites in Puerto Rico.

Ph: 787-888-1810

[Culebra NWR](#)

The refuge has diverse habitats including sub-tropical dry forests, mangroves, brush, grasslands and 22 small islands. The small rocky cays serve as temporary home to 13 species of nesting seabirds.

Ph: 787-742-0115

[Laguna Cartagena NWR](#)

Laguna Cartagena is the only freshwater marsh of significant size in southwestern Puerto Rico. The area is a stopover for neotropical migrants and several species of waterbirds. The endangered yellow-shouldered blackbird and peregrine falcon have been reported on the refuge.
